

# TLP Systems Upgrade Report

Version: 2.04.1

Project	Task	Requested By	Date	Description / Notes	Page 1 of 2
Base TLP and Framework	1564	Lincoln Logistics Ltd	25-Aug-20	Description: A general facility to enable grid views to be output to a spreadsheet has been released Notes: Please note that you will need to apply the script "scope.exportToExcel()" on any search where you envisage this being useful. It has been applied to standard searches TN_Job_Search1 and the Contract Planning search only. Over the next few releases it will gradually be added to all main views At this stage this does not handle folded grid views and will only print the records in the page you are looking at. So if you need more records you will need to expand your search	
Base TLP and Framework	1679	TLP	03-Dec-20	Description: Upgrading Tomcat to latest version has been released Notes:	
Base TLP and Framework	1690	Linfox Logistics NZ	11-Dec-20	Description: The framework has been enhanced to enable elapsed time to be calculated on change of a field Notes: The scripts for this have been applied to TN_Manifest_Detail1 only, upon change of the two time fields	
Linfox Container Yard - PO	1676	Linfox Logistics NZ	24-Nov-20	Description: A version of slot allocations has been created specifically for Linfox Notes:	
Linfox Container Yard - PO	1691	Linfox Logistics NZ	11-Dec-20	Description: The facility to create a bulk manifest when allocating has been provided Notes:	
Transport 2021	1628	South East	23-Oct-20	Description: The Transport Quotation facility has been redesigned to work within its own structure Notes: This is now based upon the TN_Quote schema with enhanced views and facilities This can be found in a re-worked Sales Desktop whereas previous quote facilities are now in a separate Quick Quote Desktop	
Transport 2021	1678		25-Nov-20	Description: A new Invoice emailing procedure has been added to allow Invoices to be selected for individual emailing Notes:	
Transport 2021	1685	TDL Group Ltd	08-Dec-20	Description: A flag has been made available in Global_Parameters called Container Invoicing Notes: This flag should be ticked if the customer intends to use the Container Invoicing facility at all (currently only TDL). If not when upgrading a site edit Global Parameters and Save immediately. This will have the effect of setting this field to false which we will be checking for in some logic	
Transport 2021	1686	ContainerCo	08-Dec-20	Description: With the relaxing of security to enable editing of jobs after they were invoiced a problem has occurred where some jobs were rated again after invoicing. This has now been blocked Notes:	
Transport 2021	1687	Linfox Logistics NZ	09-Dec-20	Description: An issue with Transport Jobs not executing scripts after being updated from Manifests has been resolved Notes:	
Warehouse 2021	1657	Lincoln Logistics Ltd	11-Nov-20	Description: On transfers the source statistics now default to the remaining statistics on the Movement. The user may change these if they wish Notes: This task also enables the Batch No to be transferred	

Project	Task	Requested By	Date	Description / Notes	Page 2 of 2
Warehouse 2021	1664	South East	21-Oct-20	<p>Description: A Global Mapping facility has been introduced</p> <p>Notes: This facility is used by the function that creates an Inwards Docket from a FCL Job. For this function the system will use mapping with the key CONT1</p> <p>It is also used by the Create and Allocate function - will need MAN1 set up</p>	
Warehouse 2021	1666	South East	14-Nov-20	<p>Description: A button has been provided on Inward Goods to set a docket and associated movements to On Site</p> <p>Notes: This has been applied to standard view only and will need to be applied to site specific views</p>	
Warehouse 2021	1675	Lincoln Logistics Ltd	24-Nov-20	<p>Description: A detailed Warehouse Movement report has been provided</p> <p>Notes:</p>	
Warehouse 2021	1689	Lincoln Logistics Ltd	10-Dec-20	<p>Description: A utility has been created to re-calculate stock balances in the Warehouse</p> <p>Notes: This will need to be applied to any view you feel it is safe to apply to</p>
