

TLP Systems Upgrade Report

Version: 1.41.1

Project	Task	Requested By	Date	Description / Notes	Page 1 of 2
Base TLP and Technical Work 1313		Leslie Refrigerated	08-Feb-20	Description: Notifications and reports can now be emailed to an internal list of recipients Notes:	
Base TLP and Technical Work 1316		TLP	09-Feb-20	Description: Email definitions have been enhanced to enable you to specify the ID of the list you wish to use. Notes: This has been specifically provided to enable internal lists of recipients of notifications to be defined.	
Base TLP and Technical Work 1322		TLP	14-Feb-20	Description: Add Scrollpane in both views Notes: Documentation is in DocMan Standard views will be set as part of the release of 1.41 however TLP staff will need to apply this to customised views.	
Base TLP and Technical Work 1306		TDL Group Ltd	31-Jan-20	Description: A new type of grid view that allows filtering and sorting at child level has been provided Notes: In this release we have changed the standard Container Allocations Full and Allocations Empty screens. We will change other standard views before the next release but if you specifically want to use this now or to use the facility on site specific screens then your support person will be needed. Be aware that while the grid view is clearer the view is still of the parent level not the child. Specifically on container allocation screens the view is a job view not an action view and you are allocating a job.	
Base TLP and Technical Work 239		TLP	29-Aug-16	Description: The default display of NZD against money fields has now been changed Notes: The string you would like to use to denote currency can now be set in Global Parameters in the field labelled Currency. The standard will remain NZD but Australian users may wish to change it to AUD. Alternatively symbols such as \$ can be used. Please note when changing this you will need to log out for changes to take effect.	
Financial System	1317	TLP	09-Feb-20	Description: A problem with some screen confusion within the General Ledger has been fixed Notes:	
Financial System	1321	Leslie Refrigerated	13-Feb-20	Description: The system now checks Control Accounts are present before any Journal Posting run. Notes:	
Financial System	1325	Leslie Refrigerated	22-Feb-20	Description: The Creditors remittance advice has been modified to print more characters in the reference to enable multiple references to be handled. Notes:	
Transport Development 2020	1283	Dionysius Transport	18-Dec-19	Description: The Global Alerts facility has now been released Notes: This is the mechanism for the delivery and display of Alerts. Further development tasks will cover the triggering of Alerts	
Transport Development 2020	1329	TLP	26-Feb-20	Description: The Email notifications from the Support Desktop facility within CRM have been improved Notes:	
Transport Development 2020	1324	South East	21-Feb-20	Description: A full rate card import facility has been provided Notes:	

Project	Task	Requested By	Date	Description / Notes	Page 2 of 2
Transport Development 2020	1337	ContainerCo NZL Ltd	28-Feb-20	<p>Description: A Bulk Deletion facility has been provided for Container Jobs</p> <p>Notes: Please note this only deletes jobs with a Trip Status of "Booked"</p> <p>Deleted records can be restored again if a mistake has been made</p> <p>This button has only been released on TN_Cont_Job_Search1 however it can be applied to any other job search</p>	
Transport Development 2020	1331	Lincoln Logistics Ltd	26-Feb-20	<p>Description: The push down of the Trip Status from Master Job to the Child Jobs now happens straight away</p> <p>Notes:</p>	
Transport Development 2020	1332	Lincoln Logistics Ltd	26-Feb-20	<p>Description: There is now flexibility in determining how many decimal places shall be used when running the rate card increases</p> <p>Notes: You can now enter the number of decimals you wish to use as part of the Rate Increase template</p> <p>A default can be set in Global Parameters which will automatically load until you alter it on an increase</p>	
Transport Development 2020	1326	South East	22-Feb-20	<p>Description: The loading of full rate cards from a csv file is now available</p> <p>Notes:</p>	
Transport Development 2020	1327	Symons Transport Ltd	23-Feb-20	<p>Description: The concept of a Unit has been introduced to assist with the Planning and Compartment Operations process</p> <p>Notes:</p>	
Warehouse Development	1330	Lincoln Logistics Ltd	26-Feb-20	<p>Description: In a products specification window you can now define the conversion rate for Spaces and Lifts.</p> <p>Notes: The use of these calculations is controlled by the Global_Parameters Cal_Spaces and Calc_Lifts.</p> <p>If these are invoked the relevant Job Field is calculated by the Quantity * Conversion Rate</p> <p>ie: If the Spaces field in Specification is set to 0.25 and the Quantity on a Job Item is 10 then the value of Spaces for that line will be 2.50</p>	
Warehouse Development	1333	Lincoln Logistics Ltd	26-Feb-20	<p>Description: The Warehouse Re-Packing facility has been largely re-worked and is now released</p> <p>Notes: This facility can be found on the Level 3 Desktop.</p> <p>User notes can be found in DocMan</p>	
Warehouse Development	1334	TLP	27-Feb-20	<p>Description: Some minor changes have been made to the Repacking outputs for clarity.</p> <p>Notes:</p>	
Warehouse Development	1335	Lincoln Logistics Ltd	27-Feb-20	<p>Description: A "Save No Exit" button has been added to the Repacking Detail view to speed up the process</p> <p>Notes:</p>	
Warehouse Development	1310	Lincoln Logistics Ltd	04-Feb-20	<p>Description: When a Warehouse Order is being completed due to Transport status the Actual_Date is now being set to Todays Date</p> <p>Notes:</p>
